EMERGENCY MANAGEMENT PRODUCTS TO DATE...

ROLES AND RESPONSIBILITIES FOR EMERGENCY MANAGEMENT IN BC

LOCAL GOVERNMENTS

- Majority of emergencies are handled at local government levels

PROVINCIAL

- Province may activate its regional Provincial Regional Emergency Operations Centre if the emergency is too large/complex for a local government

FEDERAL

- Federal government could be involved where it has jurisdiction/responsibility or when it receives a request to do so

BC EMERGENCY MANAGEMENT SYSTEM (BCEMS)

EMERGENCY MANAGEMENT: WHY IS IT IMPORTANT

- Local governments provide critical services such as land-use planning, drinking water and wastewater, and public safety
- It is important to have a comprehensive, coordinated and organized approach to provide services today and in the future
- What we looked for in our audit(s):
 - Emergency management program alignment with statutory requirements
 - Emergency management plans, programs and practices to enable the local government to respond to an emergency event in a timely manner and manage its consequences
 - Business continuity management systems with recovery procedures to resume critical operations in the event of disruptions

EMERGENCY MANAGEMENT AND BUSINESS CONTINUITY

AUDITOR GENERAL FOR
LOCAL GOVERNMENT

Local government demonstrates commitment to emergency management through the following activities:

- Risk based all-hazards approach
- Emergency management plan
- Business continuity plan
- Robust communication plan
- Well-trained staff
- Routine emergency exercises
- Dedicated emergency management coordinator*
- Asset management
- Sustainable financial resources
- Relationships with other key stakeholders
- Continuous learning and documentation updates

* Could be shared

BEST PRACTICES WE HAVE SEEN

- Emergency Management Shared Service (e.g. Peninsula Emergency Measures Organization)
- Public notification system awareness campaign
- Senior fire safety plan and presentations
- Senior and nursing home evacuation preparedness
- Business continuity template & brochure for local businesses
- Coordination
- Regional committees and commissions
- Cross training and backing up
- Volunteer management strategy

COMMON FINDINGS

- ▶ **Plans and actions focused on response phase of an emergency rather than on prevention, mitigation and recovery phases**
- ▶ **Lack of attention paid to business continuity at the corporate level**
- ▶ **Lack of debris management plan**
- ▶ **Lack of training on emergency management for elected officials**
- ▶ **Lack of formal process to measure performance of the emergency management program and reporting on the results of the program**

OTHER SIGNIFICANT FINDINGS (APPLICABLE TO ONE OR MORE AUDITEES)

- Partial compliance with statutory requirements
- Weak governance and oversight processes
- Lack of processes to review and revise EM plans upon its initial development
- Lack of a formal emergency training and exercise program
- Lack of essential services identification and prioritization at the corporate level
- Lack of volunteer management strategy, including Emergency Social Service (ESS)
